

Health and Science

T Level Transition: Health & Science

Campus: Rotherham College

Code: R08TP01

Level: 2

About This Course

This programme will provide students with the knowledge, skills and behaviours required to progress on to our T Level pathways in Health which contains an adult nursing specialism.

Students will develop skills for work readiness, access work related activity and gain an insight and core skills which relate directly to various healthcare occupations.

Students will complete employer set projects that link directly to the sector and support each student to meet the national technical outcomes for their chosen occupation.

Students will benefit from links to our employer partners and gain an in depth understanding of the various job roles that are accessible to them upon completion of this pathway.

What Will I Study?

- Apply knowledge and understanding of scientific theories, concepts and principles to health and science contexts
- Provide person centred care to support the health and wellbeing of individuals
- Follow Standard Operating Procedures to perform laboratory analysis
- Analyse information and data to highlight health and science issues
- Gain an in depth understanding of the healthcare sector and its wide range of occupations

Why Study Here?

- Industry standard facilities for study and development which includes our brand new, state of the art healthcare suite at the Dearne Valley Campus
- Opportunities to link up with large employers in the local area who will support you to develop your skills
- Highly qualified industry specialist staff who will support you to achieve your goals

Entry Requirements

- Grade two in English and Maths
- A keen interest in working with the healthcare sector
- A positive attitude towards learning and progression
